

Nitrous Oxide Sedation

A 9-hour CE course
*with live sedation participation
on a prophy patient appropriate for:*

- General Dentists
- Dental Specialists
- Dental Hygienists

Sponsored by the Ohio Dental Hygienist's Association
A Permanent Sponsor of Dental Continuing Education Recognized by the Ohio State Dental Board

➤ Background

- The OSDB recently adopted rules which allow properly-trained registered dental hygienists to administer nitrous oxide sedation on dental patients. This course fulfills and exceeds the OSDB the educational requirements for dental hygienists seeking to administer nitrous oxide. Additionally, this course is eligible for dentists & hygienists toward their 2012-13 biennial CE requirements.

➤ **Dates:** Saturday, October 19, 2013 (open to dentists & dental hygienists)

➤ **Venue:** Bass Lake Tavern & Inn, 460 South Street (State Route 44), Chardon, Ohio
(26 miles east of Cleveland)

➤ **Time:** 7:30 Registration, Course: 8:00AM – 5:30PM

➤ **Speaker:** Larry J. Sangrik, DDS

➤ Format

- The first portion of the course (at Bass Lake Inn) will consist of the lecture followed by a written exam. Participants will then move to Dr. Sangrik's office (across the street) for a nitrous oxide demo, practice and an actual "rubber cup prophy" on a sedated patient (classmate). This will afford RDHs the opportunity to actually perform hygiene procedures while simultaneously administering nitrous oxide.

➤ **Tuition** *(includes continental breakfast, luncheon, manual, study guide, lab participation, clinical supplies and exams)*

- \$270 ODHA-member hygienists
- \$299 Dentists and non-ODHA-member hygienists

➤ Additional Information

- Class size is limited to 25 participants
- Pregnant women should not participate in the clinical portion
- Basic Life Support for Healthcare Providers is required in addition to this course to administer or monitor nitrous oxide.
